Course Overview

In today's digital world, Cloud Computing and DevOps have become fundamental pillars of modern IT infrastructure and operations. This course provides an in-depth understanding of the principles, practices, and tools that drive these technologies. Participants will gain hands-on experience and develop the skills needed to excel in the rapidly evolving world of cloud computing and DevOps practices, preparing them for career opportunities in the most sought-after IT domains.

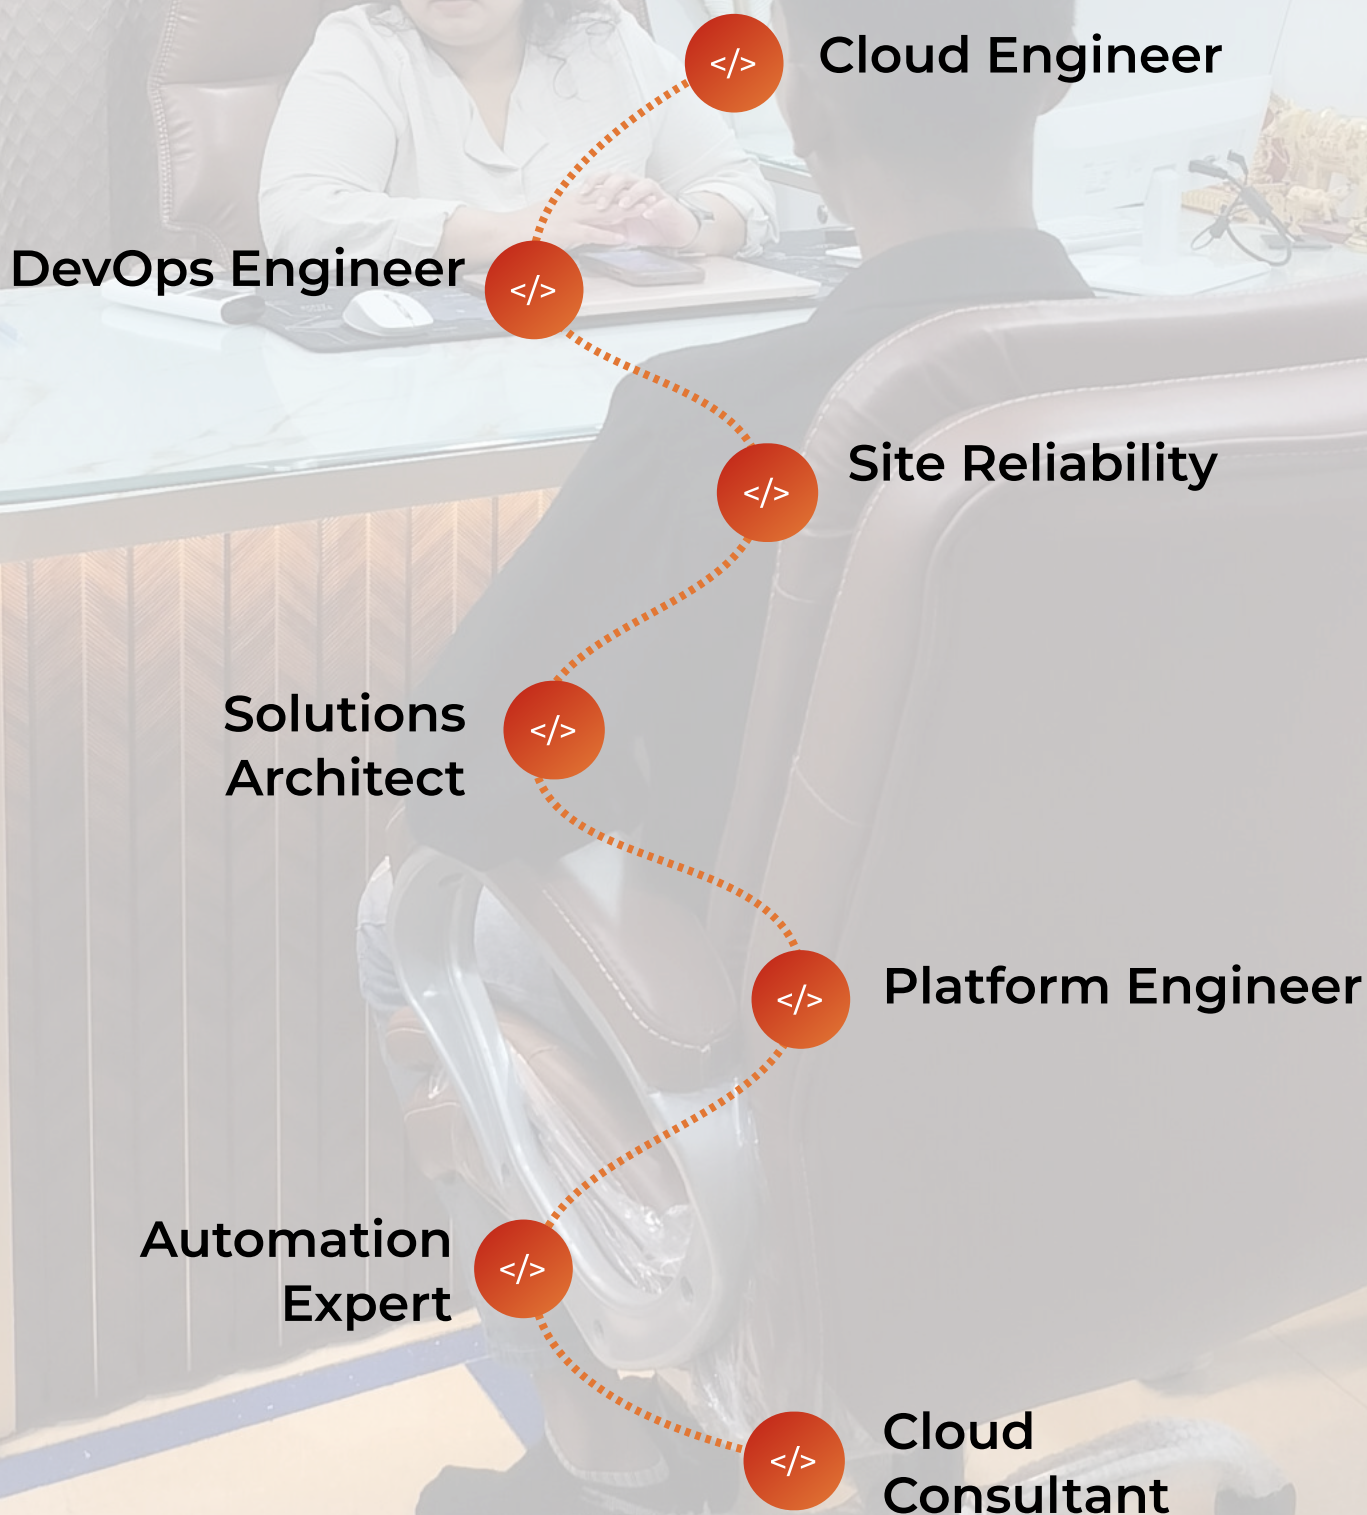

Course Objectives

The goal of the Cloud Computing & DevOps course is to equip you with in-depth knowledge of cloud technologies, automation tools, and DevOps practices. Upon completion, you will:

Career-Focused Outcomes

Upon successful completion of this program, participants will:

Industry Recognized Certification

Power Up with Globally Recognized Certifications..!!

AWS Certified Solutions Architect

Microsoft Certified: Azure Solutions Architect Expert

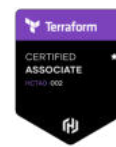

Google Cloud Professional Cloud Architect

Docker Certified Associate (DCA)

Certified Kubernetes Administrator (CKA)

HashiCorp Certified: Terraform Associate

Certified Jenkins Engineer (CJE)

Hands-On Learning & Real -World Projects

</>

Real-World Scenarios: Engage in projects that simulate real-world business environments.

</>

Practical Cloud Deployments: Experience hands-on learning by building and deploying applications on the cloud.

</>

CI/CD Pipelines: Create and automate deployment pipelines using modern DevOps tools.

</>

You will work on projects like:

- Setting up a cloud infrastructure for a large enterprise.
- Automating deployments with CI/CD tools.
- Creating secure, scalable applications in the cloud.

Support Services

We are committed to your success throughout the course:

</>

24/7 Technical Support: Receive technical assistance whenever you face any challenges with course materials or tools.

</>

Mentorship Program: Regular one-on-one mentorship sessions with instructors and industry experts to guide your learning and career journey.

</>

Career Support: Resume building, job placement assistance, and interview preparation to help you land your dream job in Cybersecurity and Ethical Hacking.

</>

Peer Collaboration: Join a thriving community of cloud computing and DevOps professionals to network, collaborate, and grow.

Program Benefits beyond curriculum

GitHub Profile: Build a Powerful GitHub Profile: Showcase Your Code and Stand Out – Start Today and Get Noticed by Top Recruiters!

LinkedIn Profile: Transform Your LinkedIn Profile: Attract Employers and Grow Your Network – Optimize Now and Open Doors to Endless Opportunities!

Resume Writing: Craft a Winning Resume: Highlight Your Skills and Experience to Land Your Dream Job – Perfect Your Resume Now and Get Hired Faster!

Master Soft Skills & Communication: Unlock Your Full Potential and Negotiate Your Best Salary – Empower Yourself to Succeed Today!

Conquer Your Interviews: Prepare with Mock Sessions and Expert Guidance – Ace Your Interview and Land the Job You Deserve!"

Portfolio Website: Create a Stunning Portfolio Website: Showcase Your Work and Skills with Confidence – Build Yours Today and Impress Employers!

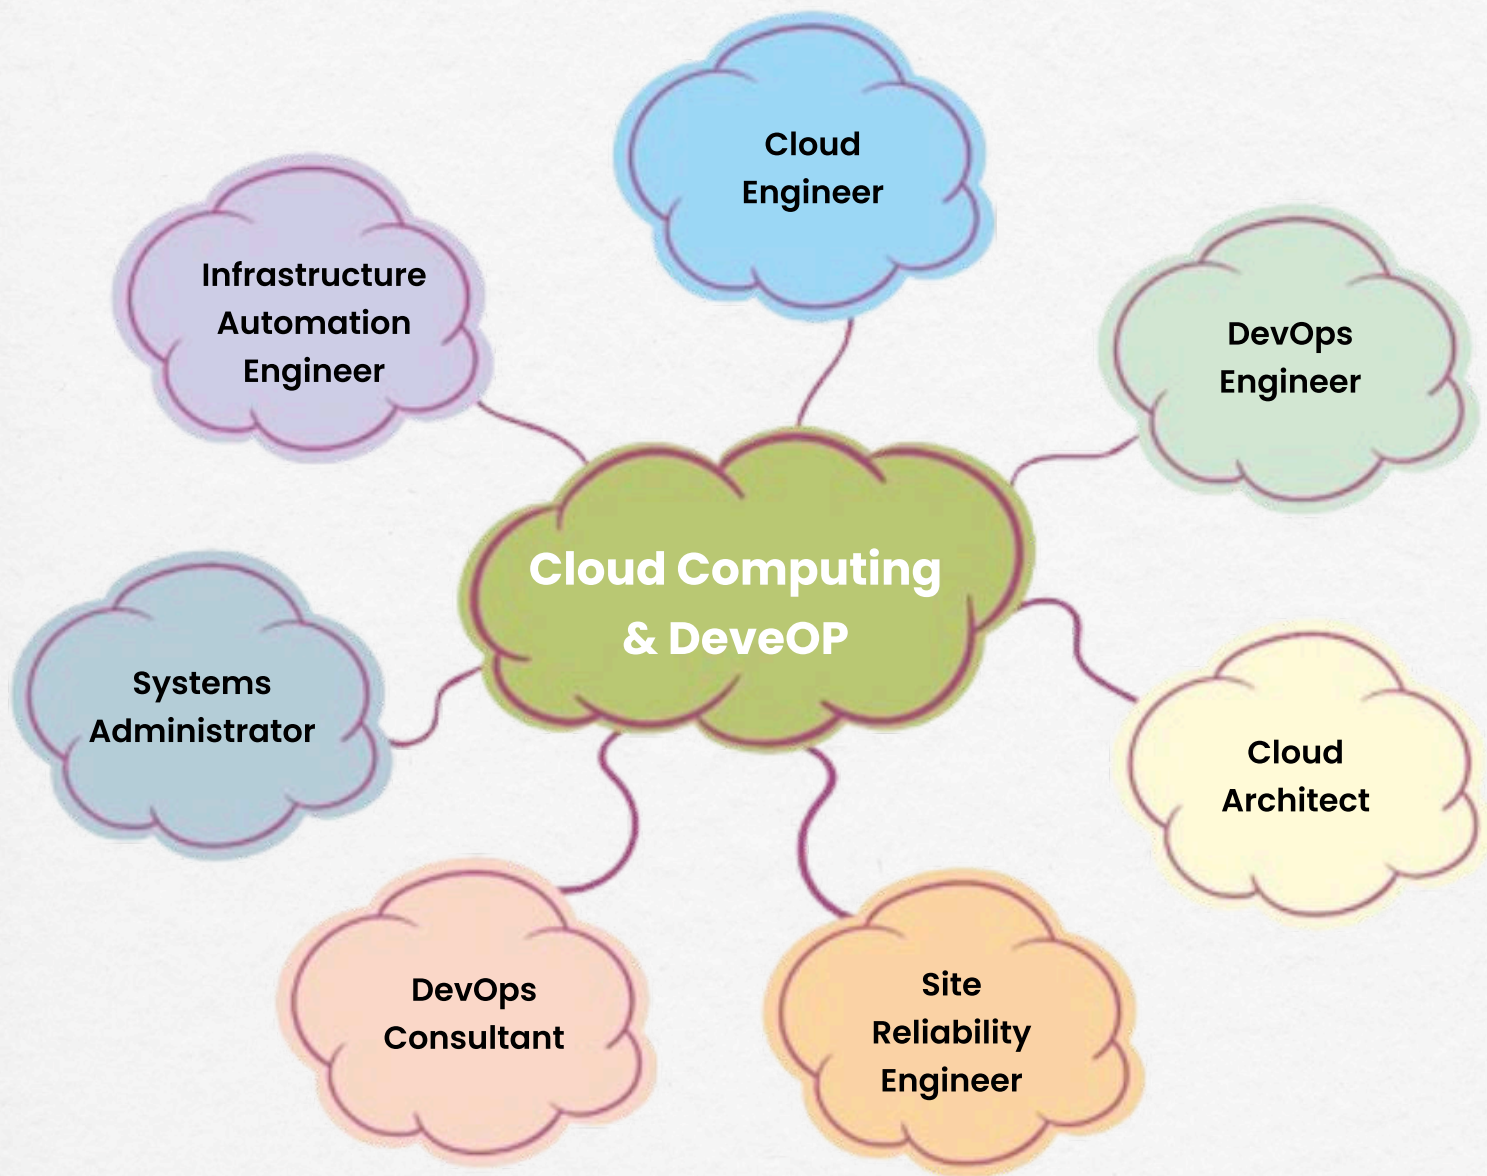

Empowering Founders at Every Stage – Where Startups Take Off and Reach New Heights.

"The Cloud Computing and DevOps program completely transformed my career. I was able to move from a traditional system administrator role to a DevOps engineer position within 6 months. The hands-on projects and certifications gave me the confidence and skills I needed to excel." – **Ankit Sharma**, DevOps Engineer at XYZ Corp.

"I got placed in a senior cloud architect role right after completing this course. The knowledge and certifications I gained from the program were key in my job search." – **Preeti Reddy**, Cloud Architect at ABC Tech.

Career Opportunities & Job Roles

Course Syllabus

Module 1: Cloud Fundamentals (Theory + Hands-on)

- Evolution of Cloud Computing
- Service Models: IaaS, PaaS, SaaS
- Deployment Models: Public, Private, Hybrid, Multi-Cloud
- Benefits, Risks, and Cost Models

Module 2: Core Cloud Platforms (AWS / Azure / GCP)

- Account setup & IAM
- Compute (EC2 / Azure VM / GCP Compute)
- Storage (S3 / Blob / Google Storage)
- Networking (VPC / Virtual Network / Cloud VPC)
- Databases (RDS / Azure SQL / CloudSQL)
- Auto Scaling, Load Balancing
- Cloud CLI Tools

Module 3: Linux Essentials for Cloud & DevOps

- Linux Basics (Shell, SSH, File Management)
- Scripting (Bash / Shell)
- Permission Management
- Cron Jobs & Process Management

Module 4: DevOps Tools & CI/CD Pipeline

- Version Control (Git, GitHub / GitLab)
- Jenkins: Job Configurations, Pipelines
- Docker: Containers, Images, Registries
- Kubernetes: Pods, Services, Deployments
- Terraform: IaC Basics, Provisioning Infrastructure
- Ansible: Configuration Management Basics

Module 5: Advanced DevOps Tools & Integration

- Helm Charts (Kubernetes)
- Prometheus & Grafana (Monitoring)
- ELK Stack / CloudWatch / Azure Monitor (Logging)
- Service Mesh (Istio Basics)

Course Syllabus

Module 6: Cloud Architecting & Security Best Practices

- Identity & Access Management (IAM Policies)
- Cloud Security Posture Management (CSPM)
- Secrets Management (AWS Secrets Manager, HashiCorp Vault)
- Encryption Mechanisms (KMS)
- Shared Responsibility Model
- Security Compliance Frameworks (ISO, SOC, GDPR)

Module 7: Enterprise Solutions & Cloud Cost Management

- High Availability & Disaster Recovery
- Serverless (Lambda / Azure Functions / Google Cloud Functions)
- Cloud Cost Optimization Strategies
- Cloud Financial Management Tools

Module 8: Cloud Security – Advanced Implementation

- Incident Response in Cloud Environments
- SIEM Integration with Cloud
- MFA, SSO Integrations
- Securing DevOps Pipelines (DevSecOps)
- Container Security (Aqua, Prisma, Falco)

Real-World Projects (Choose 2-3)

- CI/CD Pipeline for Microservices on Kubernetes with Monitoring
- Multi-Tier Web Application on AWS with Auto-Scaling, Security & Monitoring
- DevSecOps Pipeline integrating SAST, DAST, and Secrets Scanning
- Terraform + Ansible Automated Infrastructure on Azure
- Cloud Migration Project (On-Prem to AWS/Azure/GCP)

Certifications

Placement Strategic

At Careertronic, we take pride in our commitment to ensuring that our students are job-ready and well-prepared to launch successful careers in the tech industry. Here are our placement stats that highlight the effectiveness of our training programs:

Job Offers: Over 85% of students receive job offers within 3-4 months of completing the program

Top Hiring Companies: Leading tech companies such as Amazon, Accenture, Cognizant, Barclays, Oracle and more.

Career Support: Personalized career guidance, resume building, interview preparation, and job fairs for exclusive recruiter connections.

Join the “Next-Gen Future Leadership & Innovation Program” by Careertronic!

Step into the revolution of tech+ leadership! This isn't just a training program. It's your entry ticket to Industry 4.0 – where coding meets confidence, startups meet students.

Govt + MNC Integrated

Learn from global + Indian

Hands-on IT Projects

Build real-world, revenue-generating products

Startup + Investor Access

1000+ Angel investors + Startup Labs

TEDx-Style Public Speaking

Command the room like a pro

YOUR ADVANTAGE:

- Real IT Projects — Deploy & build like a pro
- Launchpad in 2–3 Weeks
- Custom Startup Plan
- No Infra Costs or Salary Headaches
- Global Corporate Network Access

**LET'S BUILD THE
FUTURE YOU DESERVE!**

STUDENT BRANDING BLUEPRINT

WHY THIS PROGRAM IS UNMATCHED?

Top Recruiters

Land your dream job at one of the leading tech companies..

Corporate Relations

STARTUP ECOSYSTEM

Connecting Startups & Investors for Success

We streamline startup investing by vetting high-potential startups, automating matchmaking and aligning deals with your preferences—making investing smarter and easier.

Our
Game-
Changing
Solutions

Startup Consulting & Funding

- Expert guidance to turn your vision into a thriving business
- Access to strategic funding opportunities to scale rapidly

Pitch Decks & Financial Models

Compelling pitch decks and solid financial plans that attract investors.

Project Reports

Actionable insights to guide your decisions and attract funding.

ValidatemySaas

Validate your product idea before building—avoid costly mistakes

Take your startup to the next level with Careertronic, a revolutionary platform designed to connect you with over 36000+ verified angel investors and venture Capitalist.

Expert Business Report, Pitch Deck, Financial Projections preparation through IIT & IIM consultants

Validate Before You Build, Not After You Ship

We believe in the power of validation. Startups succeed when they build what people truly need starting with validation before launch.

Discover Tomorrow's Startups, Today

Our platform connects you with the most promising startups, giving you access to investment opportunities that could shape the future.

Let's Build the Future Together

Partner with us to turn your startup vision into a thriving business. Whether you're an entrepreneur or an investor, we connect the right people with the right opportunities.

Startups Are the Future

And the future belongs to builders. At Careertronic, we transform entrepreneurs into founders who are equipped to lead.

Unlock the Power of Design: Become A Cloud Computing & DeveOP Expert

Dive into the world of cybersecurity and ethical hacking to protect businesses from evolving cyber threats. With hands-on training, industry-recognized certifications, and a rapidly growing job market, this course will equip you with the skills needed for a successful career in one of the most in-demand fields today.

Real-World Projects –

Deploy apps, manage servers, automate with CI/CD tools on AWS, Azure & GCP.

Top Tools Covered-

AWS, Docker, Kubernetes, Jenkins

Flexible Learning-

Learn at your own pace..

Certification-

AWS, Docker, DevOps credentials

Expert Instructors-

Learn from certified cloud computing pros

**Your Future in
Cloud computing
starts here!!!**

**Enroll today & start your journey toward becoming
a Cloud Computing & DeveOP expert..!**

"Ready to Build, Secure, and Scale the Future? Join Now."
