Course Overview

Cybersecurity and ethical hacking are critical areas in today's digital-first world, where cyber threats and data breaches are on the rise. This **Cyber Security & Ethical Hacking** program is designed to provide you with the skills needed to protect systems, networks, and data from malicious attacks. From ethical hacking to penetration testing, this comprehensive course covers everything you need to build a successful career in cybersecurity.

By the end of the course, you'll have hands-on experience in detecting, analyzing, and mitigating security threats, and be equipped with the knowledge to become an ethical hacker and cybersecurity expert in a world increasingly dependent on secure digital infrastructures.

Course Objectives

The goal of the Cyber Security & Ethical Hacking course is to equip you with a thorough understanding of cybersecurity principles, tools, and techniques. Upon completion, you will:

Career-Focused Outcomes

Upon successful completion of this program, participants will:

Industry Recognized Certification

Power Up with Globally Recognized
Certifications..!!

Certified Ethical Hacker
(CEH)

Certified Information
Systems Security
Professional (CISSP)

CompTIA Security+

Certified Network Defender
(CND)

Certified Information
Security Manager (CISM)

Hands-On Learning & Real -World Projects

</>

Live Hacking Labs: Gain hands-on experience by engaging in ethical hacking activities on live systems using tools like **Kali Linux**, **Metasploit**, **Nmap**, and **Burp Suite**.

</>

Penetration Testing Projects: Conduct penetration tests and vulnerability assessments on networks and systems to identify and exploit security flaws.

</>

Incident Response Simulations: Learn how to detect, contain, and respond to security breaches through simulated attack scenarios.

</>

Cybersecurity Case Studies: Work on real-world case studies that simulate actual cyberattacks, including ransomware, phishing, and social engineering attacks.

Support Services

We are committed to your success throughout the course:

</>

24/7 Technical Support: Receive technical assistance whenever you face any challenges with course materials or tools.

</>

Mentorship Program: Regular one-on-one mentorship sessions with instructors and industry experts to guide your learning and career journey.

</>

Career Support: Resume building, job placement assistance, and interview preparation to help you land your dream job in Cybersecurity and Ethical Hacking.

</>

Peer Collaboration: Join a vibrant community of learners and professionals for collaborative learning, networking, and career opportunities.

Program Benefits beyond curriculum

GitHub Profile: Build a Powerful GitHub Profile: Showcase Your Code and Stand Out – Start Today and Get Noticed by Top Recruiters!

LinkedIn Profile: Transform Your LinkedIn Profile: Attract Employers and Grow Your Network – Optimize Now and Open Doors to Endless Opportunities!

Resume Writing: Craft a Winning Resume: Highlight Your Skills and Experience to Land Your Dream Job – Perfect Your Resume Now and Get Hired Faster!

Master Soft Skills & Communication: Unlock Your Full Potential and Negotiate Your Best Salary – Empower Yourself to Succeed Today!

Conquer Your Interviews: Prepare with Mock Sessions and Expert Guidance – Ace Your Interview and Land the Job You Deserve!"

Portfolio Website: Create a Stunning Portfolio Website: Showcase Your Work and Skills with Confidence – Build Yours Today and Impress Employers!

Empowering Founders at Every Stage – Where Startups Take Off and Reach New Heights.

This course gave me the practical skills and confidence I needed to transition into a cybersecurity role. The hands-on projects were invaluable, and the support I received from instructors was exceptional."

– **Ravi Sharma**, Cyber Security Analyst at TechSecure Solutions

"I was able to secure a job as an Ethical Hacker within 6 months of completing this course. The live labs and real-world case studies helped me apply what I learned in a practical setting."

– **Neha Gupta**, Penetration Tester at CyberGuard Inc.

Career Opportunities & Job Roles

**Ethical Hacker
(Penetration Tester)**

Cyber Security Analyst

**Network Security
Engineer**

**Incident Response
Specialist**

**Cyber Security
Consultant**

Digital Forensics Expert

Security Architect

Vulnerability Analyst

Course Syllabus

Module 1: Introduction to Cybersecurity

- What is Cybersecurity? Why is it important?
- Key Concepts: CIA Triad (Confidentiality, Integrity, Availability)
- Common Threats: Malware, Phishing, Ransomware, Insider Threats, etc.
- Career Paths in Cybersecurity
- Governance, Compliance (ISO 27001, GDPR Basics)

Module 2: Networking Essentials for Security

- Networking Basics: OSI, TCP/IP, Subnetting
- Network Protocols: HTTP/S, DNS, DHCP, FTP, SMTP
- Network Security Fundamentals: VPN, Proxy, Firewalls, IDS/IPS
- Hands-on: Packet Tracing, Wireshark Analysis, Basic Nmap Scanning

Module 3: Operating Systems & Endpoint Security

- Windows Security: Group Policies, Event Logs, Defender, BitLocker
- Linux Security: User Permissions, Sudo, iptables, Fail2Ban, SSH
- macOS Security Essentials
- Hardening OS – Baseline Configurations & Best Practices

Module 4: Ethical Hacking Essentials

- Phases of Ethical Hacking (Reconnaissance to Reporting)
- Footprinting Techniques
- Vulnerability Identification
- Introduction to Kali Linux Tools
- Legal & Ethical Considerations (Cyber Laws, Compliance)

Module 5: Vulnerability Assessment & Penetration Testing (VAPT)

- Scanning & Enumeration
- Exploitation Techniques: Buffer Overflow (Basic), Metasploit Usage
- Web Application Pentesting Basics (OWASP Top 10)
- Tools: Burp Suite, OWASP ZAP, SQLMap, Nikto
- Real-World Exploits Practice

Course Syllabus

Module 6: Incident Response & Digital Forensics

- SOC Fundamentals, SIEM Tools Overview (Splunk / Wazuh / ELK)
- Incident Handling Process
- Digital Forensics Fundamentals (Chain of Custody, Evidence Handling)
- Tools: FTK Imager, Autopsy, EnCase Overview
- Malware Analysis (Static & Dynamic Basics)

Module 7: Web & Application Security

- Threat Modeling for Applications
- Common Web Attacks: SQLi, XSS, CSRF, SSRF, Clickjacking
- Secure SDLC, OWASP Top 10 Deep Dive
- Testing APIs for Vulnerabilities
- Security Headers, Authentication Controls

Module 8: Cloud Security Fundamentals

- Windows Security: Group Policies, Event Logs, Defender, BitLocker
- Linux Security: User Permissions, Sudo, iptables, Fail2Ban, SSH
- macOS Security Essentials
- Hardening OS – Baseline Configurations & Best Practices

Module 9: Blue Team Operations (Defensive Security)

- Threat Intelligence
- Log Management, SIEM Implementation (Splunk, Graylog, ELK)
- SOC Operations, Alerting & Escalation
- Phishing Email Analysis
- Defensive Playbooks & Response Strategies

Capstone Projects (Choose 2-3)

- 1. Penetration Testing on a Simulated Corporate Network**
 - Reconnaissance, Scanning, Exploitation, Reporting
- 2. Web Application Security Audit for Vulnerabilities**
 - OWASP Top 10 Focus, Detailed Remediation Plan
- 3. Incident Response Simulation (SOC Environment)**
 - Attack Simulation, Detection, Analysis, Reporting
- 4. Cloud Security Hardening for AWS / Azure**
 - Identity Policies, Encryption, VPC Configurations, Cost Guardrails
- 5. Security Operations Dashboard Creation (SIEM)**
 - Threat Detection, Dashboards, Correlation Rules

Certifications

Placement Strategic

At Careertronic, we take pride in our commitment to ensuring that our students are job-ready and well-prepared to launch successful careers in the tech industry. Here are our placement stats that highlight the effectiveness of our training programs:

Job Offers: Over 85% of students receive job offers within 3-4 months of completing the program

Top Hiring Companies: Leading tech companies such as Amazon, Accenture, Cognizant, Barclays, Oracle and more.

Career Support: Personalized career guidance, resume building, interview preparation, and job fairs for exclusive recruiter connections.

Join the “Next-Gen Future Leadership & Innovation Program” by Careertronic!

Step into the revolution of tech+ leadership! This isn't just a training program. It's your entry ticket to Industry 4.0 – where coding meets confidence, startups meet students.

Govt + MNC Integrated

Learn from global + Indian

Hands-on IT Projects

Build real-world, revenue-generating products

Startup + Investor Access

1000+ Angel investors + Startup Labs

TEDx-Style Public Speaking

Command the room like a pro

YOUR ADVANTAGE:

- Real IT Projects — Deploy & build like a pro
- Launchpad in 2–3 Weeks
- Custom Startup Plan
- No Infra Costs or Salary Headaches
- Global Corporate Network Access

**LET'S BUILD THE
FUTURE YOU DESERVE!**

STUDENT BRANDING BLUEPRINT

WHY THIS PROGRAM IS UNMATCHED?

Top Recruiters

Land your dream job at one of the leading tech companies..

Corporate Relations

STARTUP ECOSYSTEM

Connecting Startups & Investors for Success

We streamline startup investing by vetting high-potential startups, automating matchmaking and aligning deals with your preferences—making investing smarter and easier.

Our
Game-
Changing
Solutions

Startup Consulting & Funding

- Expert guidance to turn your vision into a thriving business
- Access to strategic funding opportunities to scale rapidly

Pitch Decks & Financial Models

Compelling pitch decks and solid financial plans that attract investors.

Project Reports

Actionable insights to guide your decisions and attract funding.

ValidatemySaas

Validate your product idea before building—avoid costly mistakes

Take your startup to the next level with Careertronic, a revolutionary platform designed to connect you with over 36000+ verified angel investors and venture Capitalist.

Expert Business Report, Pitch Deck, Financial Projections preparation through IIT & IIM consultants

Validate Before You Build, Not After You Ship

We believe in the power of validation. Startups succeed when they build what people truly need starting with validation before launch.

Discover Tomorrow's Startups, Today

Our platform connects you with the most promising startups, giving you access to investment opportunities that could shape the future.

Let's Build the Future Together

Partner with us to turn your startup vision into a thriving business. Whether you're an entrepreneur or an investor, we connect the right people with the right opportunities.

Startups Are the Future

And the future belongs to builders. At Careertronic, we transform entrepreneurs into founders who are equipped to lead.

Unlock the Power of Design: Become A Cybersecurity & Ethical Hacking Expert

Dive into the world of cybersecurity and ethical hacking to protect businesses from evolving cyber threats. With hands-on training, industry-recognized certifications, and a rapidly growing job market, this course will equip you with the skills needed for a successful career in one of the most in-demand fields today.

✓ **Real-World Projects –**
Simulate cyber attacks & defense scenarios

✓ **Top Tools Covered-**
Kali Linux, Metasploit, Wireshark, Burp Suite

✓ **Flexible Learning-**
Learn at your own pace..

✓ **Certification-**
CEH, Security+, career-launching credentials

✓ **Expert Instructors-**
Learn from certified ethical hackers & pros

**Your Future
in Cyber and
hacking
starts here!!!**

**Enroll today & start your journey toward becoming
a Cybersecurity & Ethical Hacking expert..!**

"Ready to Hack, Protect & Lead? Join Now."
