Course Overview

In the age of big data, organizations are increasingly relying on data analytics to drive business decisions, optimize processes, and uncover valuable insights. The Data Analytics training program is designed to provide you with the skills necessary to turn raw data into actionable intelligence, using cutting-edge tools and techniques. This course covers everything from data exploration and statistical analysis to machine learning and predictive analytics. Whether you are a beginner or looking to advance your career, this program will help you become a proficient data analyst capable of solving complex business problems.

Course Objectives

The Data Analytics program is designed to provide a comprehensive understanding of the principles, tools, and techniques used in data analysis. Upon completion, you will be able to:

Career-Focused Outcomes

Upon successful completion of this program, participants will:

Industry Recognized Certification

Power Up with Globally Recognized Certifications..!!

**Data Analyst Associate
(Power BI)**

**Data Analytics Professional
Certificate**

**Data Science Professional
Certificate**

**Certified Analytics
Professional (CAP)**

**Desktop Specialist
Certification**

Hands-On Learning & Real -World Projects

</>

Practical Learning: Gain hands-on experience through case studies, live projects, and real-world data sets.

</>

Data Cleaning and Visualization: Work on projects that involve preparing, cleaning, and analyzing data to uncover insights.

</>

Predictive Analytics: Build predictive models using machine learning algorithms for forecasting trends, customer behavior, and business outcomes.

</>

Industry-Relevant Projects: Collaborate on projects based on real industry scenarios, such as market analysis, customer segmentation, and sales forecasting.

Support Services

We are committed to your success throughout the course:

</>

24/7 Technical Support: Receive technical assistance whenever you face any challenges with course materials or tools.

</>

Mentorship Program: Regular one-on-one mentorship sessions with instructors and industry experts to guide your learning and career journey.

</>

Career Support: Resume building, job placement assistance, and interview preparation to help you land your dream job in data analytics.

</>

Peer Collaboration: Join a vibrant community of learners and professionals for collaborative learning, networking, and career opportunities.

Program Benefits beyond curriculum

GitHub Profile: Build a Powerful GitHub Profile: Showcase Your Code and Stand Out – Start Today and Get Noticed by Top Recruiters!

LinkedIn Profile: Transform Your LinkedIn Profile: Attract Employers and Grow Your Network – Optimize Now and Open Doors to Endless Opportunities!

Resume Writing: Craft a Winning Resume: Highlight Your Skills and Experience to Land Your Dream Job – Perfect Your Resume Now and Get Hired Faster!

Master Soft Skills & Communication: Unlock Your Full Potential and Negotiate Your Best Salary – Empower Yourself to Succeed Today!

Conquer Your Interviews: Prepare with Mock Sessions and Expert Guidance – Ace Your Interview and Land the Job You Deserve!"

Portfolio Website: Create a Stunning Portfolio Website: Showcase Your Work and Skills with Confidence – Build Yours Today and Impress Employers!

Empowering Founders at Every Stage – Where Startups Take Off and Reach New Heights.

"This Data Analytics course helped me land a role as a Data Analyst at a leading financial services firm. The hands-on projects and real-world applications gave me the confidence to solve real business problems." – **Anjali Mehra**, Data Analyst at FinTech Solutions

"I came from a non-technical background, but this course made data analytics accessible. I now use Python and Power BI to derive insights from data at my job, and I'm already seeing the impact of data-driven decisions." – **Ravi Kumar**, Business Intelligence Analyst at Retail Corp

Career Opportunities & Job Roles

Data Science

**Business
Intelligence Analyst**

Quantitative Analyst

Data Analyst

Data Engineer

**Market Research
Analyst**

**Data Visualization
Specialist**

Course Syllabus

Module 1: Introduction to Data Analytics & Business Intelligence

- What is Data Analytics?
- Data Analytics Lifecycle
- Types of Data Analytics: Descriptive, Diagnostic, Predictive, Prescriptive
- Business Intelligence Overview
- Analytics Tools Overview (Excel, SQL, Python, Power BI, Tableau)

Module 2: Advanced Excel for Data Analysis

- Excel Data Handling: Sorting, Filtering, Conditional Formatting
- Advanced Formulas & Functions (VLOOKUP, INDEX-MATCH, IF, Nested IF, SUMIFS, etc.)
- Pivot Tables & Pivot Charts
- Data Validation & Cleaning Techniques
- What-If Analysis, Goal Seek, Scenario Manager
- Dashboards and Visualization in Excel

Module 3: SQL for Data Analytics

- Database Concepts & Relational Databases
- SQL Basics: SELECT, WHERE, GROUP BY, HAVING, ORDER BY
- Joins: INNER, LEFT, RIGHT, FULL
- Subqueries & CTEs
- Window Functions (RANK, DENSE_RANK, ROW_NUMBER)
- Data Cleaning and Aggregation in SQL
- Writing Optimized Queries

Module 4: Statistics & Probability for Data Analytics

- Descriptive Statistics: Mean, Median, Mode, Variance, Standard Deviation
- Probability Concepts
- Inferential Statistics: Hypothesis Testing, Confidence Intervals
- Correlation & Regression Analysis
- Sampling Methods & Data Distribution
- Chi-Square Test, ANOVA

Module 5: Python for Data Analytics

- Python Basics: Data Types, Functions, Loops, Conditional Statements
- Libraries for Data Analysis: Pandas, Numpy, Matplotlib, Seaborn
- Data Manipulation with Pandas
- Data Visualization Techniques
- Exploratory Data Analysis (EDA)
- Handling Missing Values & Outliers
- Introduction to Jupyter Notebooks

Course Syllabus

Module 6: Exploratory Data Analysis (EDA)

- Understanding Dataset Structure
- Data Cleaning & Preprocessing
- Univariate, Bivariate, Multivariate Analysis
- Outlier Detection & Treatment
- Correlation Matrix and Feature Engineering
- Visualization for Data Understanding

Module 7: Data Visualization with Tableau

- Tableau Basics & Interface
- Connecting to Data Sources
- Building Different Visualizations: Bar, Line, Scatter, Maps
- Filters, Parameters, Calculated Fields
- Dashboards and Storytelling
- Publishing and Sharing Reports

Module 8: Power BI for Business Intelligence

- Introduction to Power BI
- Data Import and Transformation (Power Query)
- DAX Basics (Data Analysis Expressions)
- Data Modeling in Power BI
- Creating Visual Reports & Dashboards
- Power BI Service & Sharing Insights

Module 9: Hands-On Project

- End-to-End Data Analytics Project:
 - Business Problem Definition
 - Data Collection & Cleaning
 - EDA & Hypothesis Formation
 - Statistical Analysis
 - Data Visualization (Tableau/Power BI)
 - Business Insights & Recommendations
 - Market Basket Analysis for Retail
 - Employee Attrition Analysis
 - Sales Forecasting & Trend Analysis
 - Customer Churn Prediction using EDA + Statistical Methods

Certifications

Placement Strategies

At Careertronic, we take pride in our commitment to ensuring that our students are job-ready and well-prepared to launch successful careers in the tech industry. Here are our placement stats that highlight the effectiveness of our training programs:

Job Offers: Over 85% of students receive job offers within 3-4 months of completing the program

Top Hiring Companies: Leading tech companies such as Amazon, Accenture, Cognizant, Barclays, Oracle and more.

Career Support: Personalized career guidance, resume building, interview preparation, and job fairs for exclusive recruiter connections.

Join the “Next-Gen Future Leadership & Innovation Program” by Careertronic!

Step into the revolution of tech+ leadership! This isn't just a training program. It's your entry ticket to Industry 4.0 – where coding meets confidence, startups meet students.

Govt + MNC Integrated

Learn from global + Indian

Hands-on IT Projects

Build real-world, revenue-generating products

Startup + Investor Access

1000+ Angel investors + Startup Labs

TEDx-Style Public Speaking

Command the room like a pro

YOUR ADVANTAGE:

- Real IT Projects — Deploy & build like a pro
- Launchpad in 2–3 Weeks
- Custom Startup Plan
- No Infra Costs or Salary Headaches
- Global Corporate Network Access

**LET'S BUILD THE
FUTURE YOU DESERVE!**

STUDENT BRANDING BLUEPRINT

WHY THIS PROGRAM IS UNMATCHED?

Top Recruiters

Land your dream job at one of the leading tech companies..

Corporate Relations

STARTUP ECOSYSTEM

Connecting Startups & Investors for Success

We streamline startup investing by vetting high-potential startups, automating matchmaking and aligning deals with your preferences—making investing smarter and easier.

Startup Consulting & Funding

- Expert guidance to turn your vision into a thriving business
- Access to strategic funding opportunities to scale rapidly

Pitch Decks & Financial Models

Compelling pitch decks and solid financial plans that attract investors.

Project Reports

Actionable insights to guide your decisions and attract funding.

ValidatemySaas

Validate your product idea before building—avoid costly mistakes

Take your startup to the next level with Careertronic, a revolutionary platform designed to connect you with over 36000+ verified angel investors and venture Capitalist.

Expert Business Report, Pitch Deck, Financial Projections preparation through IIT & IIM consultants

Validate Before You Build, Not After You Ship

We believe in the power of validation. Startups succeed when they build what people truly need starting with validation before launch.

Discover Tomorrow's Startups, Today

Our platform connects you with the most promising startups, giving you access to investment opportunities that could shape the future.

Let's Build the Future Together

Partner with us to turn your startup vision into a thriving business. Whether you're an entrepreneur or an investor, we connect the right people with the right opportunities.

Startups Are the Future

And the future belongs to builders. At Careertronic, we transform entrepreneurs into founders who are equipped to lead.

Unlock the Power of Data: Become A Data Analytics Expert

Data analytics is an essential skill for businesses to thrive in the modern digital economy. Whether you're looking to break into the field or enhance your existing skills, this comprehensive program will equip you with the knowledge and experience necessary to succeed.

- ✓ **Real - World Projects**
Solve industry Problems
- ✓ **Top Tools Covered-**
Python, SQL, Tableau, Power BI
- ✓ **Flexible Learning-**
Learn at your own pace..
- ✓ **Certification-**
Industry - recognized, career-boosting
- ✓ **Expert Instructors-**
Learn from the best..

**Your Future
in data
starts here!!!**

Enroll today & start your journey toward becoming a data analytical expert..!
